Preliminary Title: International Baseline Report Series: The Kingdom of Saudi Arabia

Type of Report (ERR, EIB, EB) EIB

Influential Scientific Information

Agency: Economic Research Service Highly Influential Scientific Assessment
USDA

Agency Contact: Kelly Maguire, kelly.b.maguire@usda.gov

Subject of Review: Economic Research Service (ERS) economists participate in the long-term projections analysis and lead the preparation of the USDA's long-term projections report (USDA Agricultural Projections to 2032). The U.S. agricultural market encompasses much of the focus of the USDA's long-term projections report, and as a result this report series seeks to provide stakeholders with additional long-term analysis of major agriculture commodities in a foreign agricultural market. Analysis covers the country/region's macroeconomic assumptions, as well as its historic and projected agricultural production, consumption, and trade data. Each country/regional report will be updated and released to the public on a multi-year cycle.

Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
