¹Support prices are average loan rates 1950-54. Support was carried out through loans or purchases, rather than direct payments. Support prices and Government payments are for marketing years beginning April 1 for 1955-62; the 9 months April through December for 1963; and calendar years beginning in 1964. Market prices are for calendar years for 1955-56 and 1964-83; April-May marketing years for 1957-62; and April-December for 1963. Payment rate is computed as total payments divided by U.S. wool production and Texas mohair production.
